

ARTEC
MACHINE SYSTEMS

26 Commerce Drive, North Branford, Ct. 06471

March 2006

- **Carroll Oates** is appointed Director for Business Development at Artec Machine Systems in North Branford, Connecticut.
 - Mr. Oates has recently joined Artec after holding senior positions with AlliedSignal Turbines and MTU/Detroit Diesel. His focus at Artec is with the expansion and improvement of their field service activities employing maintenance concepts used within the aviation and marine industries.
 - Mr. Oates holds a Masters Degree in International Trade from Sacred Heart University in Fairfield, Connecticut. He is a retired US Army Maintenance Officer and a graduate of the Army's Command and General Staff College and the Army's Executive Logistics Management Course. His primary focus in both Military and Commercial past positions has been with propulsion systems for vehicles, aircraft and marine applications.
 - Carroll's background seems to make him adequately postured to address this industry's objective of profitability through reliability of equipment and proper maintenance techniques.
